---	---

This engaging workshop is designed for those who already maintain a school garden project AND for those considering one. It is open to school faculty and staff, parents, community members – all are welcome!

Sessions will include topics such as integrating garden projects into school curricula and utilizing the harvest in the classroom and cafeteria, as well as a panel of experienced school gardeners and other experts to share tips and answer questions. A successful school garden project which engages students, staff and community will be highlighted.

**Location:** Eben Holden Center, St. Lawrence University Campus
