

OverDrive @SLU

We are pleased to announce that we've added an eBook lending service called *OverDrive* to our web site and collections. OverDrive@SLU includes popular titles, fiction, current events titles, biography, and audiobooks to complement our Browsing Collection. You can check out and download the titles you want to your computer, e-reader, MP3 player, or other handheld device.

Some set-up may be necessary before you can begin to download OverDrive books to your device. To find out what you'll need to do, click the *Need Help* graphic. Select either audiobook or eBook, then click on the type of device you have, and the instructions for preparing your device or computer to download eBooks will be front and center.

What do you have?

- Amazon Kindle
- Windows® computer
- Mac® computer
-
- Android™
- BlackBerry®
- iPhone® / iPad® / iPod touch®
- Windows® Phone 7
-
- Sony® Reader
- NOOK™ / NOOKcolor™
- Kobo™ eReader
- Other eBook reader

■ **Helpful hints:** Be sure to take a quick peek at the *My Help Guided Tour* for a sense of how to select books. When you're ready to "check out" and download a book, you'll need your SLU ID number (located below the photo on your SLU ID card).

■ **Questions?** Questions about borrowing OverDrive books, questions about the scope of the OverDrive collection, or suggestions for new titles can be directed to any one of the Librarians in ODY or Lauanders.

■ **Trouble with a Reading Device?** If you having issues with your reader (whichever one it might be) stop by the IT HelpDesk on the lower-level of ODY Library, or the HelpDesk on the lower level of Madill Hall. You can also call 315.229.5770. Happy reading, and don't forget the Browsing collection in ODY!
