NOTE:  the St. Lawrence Program in Spain can observe only Spanish holidays and vacation periods. It is
expected that the family and friends of the students adhere to this calendar and limit their visits to Spain to the
announced vacation periods (Christmas and Easter). Visits while class is in session, during exam periods and
during excursions disrupt the student’s routine and the normal flow of program activities. Please refer to the
General Information and Norms of Behavior regarding unexcused absences and how they affect final grades.
Although the dates of the excursions are reasonably firm, unforeseen circumstances may force a change in any
given excursion once the semester is under way. Also, since the areas of the country and/or the cities visited
often vary from year to year, they will be announced at the beginning of each semester, and not beforehand.
Therefore, you should not rely on hearsay regarding destinations.
