Majors in economics must take at least 9 units in economics. Economics 100, 200, 251 and 252 are required. Majors must also take at least three 300- or 400-level courses in addition to an SYE seminar or project (Economics 450, 489, 490, 498, 499).

The following regulations also apply:

1. Students will not be admitted to the major unless they have at least a 2.0 university cumulative average and at least a 2.0 cumulative average in economics. If the student has completed Economics 251 or 252, he/she must have earned a grade of at least 2.0 in each course in order to be admitted to the major.

2. To remain in good standing, economics majors must maintain a university grade point average of at least 2.0 and an economics grade point average of at least 2.0. Majors must also earn a grade of at least 2.0 in both Economics 251 and Economics 252 to continue as a major in economics.

   I understand that if I do not earn a 2.0 in either Econ 251 or 252, or if my major GPA drops below 2.0, I may be dropped from the Economics major. Initial here: _______

3. Economics 108 & 115 and Accounting 203 & 204 do not count towards the major in economics.

4. No more than one independent project or off-campus economics course may count toward the minimum number of economics courses required for the major.

5. It is expected that Economics 251 and Economics 252 be taken at St. Lawrence. Exceptions to this policy are only granted in special cases.

6. The maximum number of economics courses permitted in the major is 12.

7. Students must have a 3.0 average in economics to enroll in a full-unit independent study course (Economics 289, 290, 389, 390, 489, 490).

8. Statistics 113 is a prerequisite for Economics 200. Students who have completed Statistics 213 with a 2.0 or higher must take another economics elective in lieu of Economics 200.

9. Graduation with honors may be recommended upon the basis of grades, the completion of an honors project approved and supervised by a faculty member, and an oral presentation of the thesis. Students who expect to undertake such a program should consult with the department chair in the last term of their junior year.

I UNDERSTAND AND AGREE TO THE REQUIREMENTS STATED ABOVE.
