During the 2016-2017 academic year, two areas will be provided for students who prefer to live on a Quiet Study Floor. One section of Quiet Study will be in Sykes and the other on the 3rd floor of 62 Park. Rooms will be assigned according to lottery numbers.

**GOAL:** To create an environment for students who choose to place emphasis on quiet study. All residents must be committed to the following guidelines:

1. Residents of the Quiet Study Floor must agree to standards, set by the community, which aid in the quiet atmosphere of the hall. These standards may include extended quiet hours.
2. Visitors in this area must adhere to community rules and expectations and must not disturb other residents.
3. Members should recognize that they are responsible for upholding policies and standards as outlined in the Student Handbook.
4. Members should recognize that if they fail to follow all of these guidelines they may be relocated to another living area.

I have read the Quiet Study Floor guidelines and agree to abide by them in full should I be placed on the Quiet Study Floor. I understand that if I receive a spot on the Quiet Study Floor, I am not able to participate in other housing options (Example: Room Draw).
