What did we teach?
- Microsoft Word
- Email
- Facebook
- Snapfish
- Skype
- Youtube
- Internet Safety

Why were we there?
- Teach computer skills to senior citizens in the Canton area
- Spend time with senior citizens
- Decrease susceptibility to internet scams

What did we learn?
- Patience and understanding when it comes to teaching
- The importance of teaching all members of society skills as we progress and not leaving anyone out, especially in the technology age
- How much wisdom and experience comes from age, even though we were the "teachers," we had a lot to learn from the seniors
- The importance of bridging the generational gaps

How did we contribute to the local community?
- We passed our knowledge of technology and computers to people in the Canton community
- We helped individuals connect with family and friends in ways they didn't know possible
- We taught them ways to enhance or make their lives easier through the computer
- We created relationships between the community's college students and senior citizens
