Statistics Minor Requirements: Five courses are required. These courses must be chosen from among the options listed below; no more than two of the five courses can be disciplinary methods courses from outside the statistics offerings. Statistics 113 and Economics 200 may not both be counted toward the statistics minor. An independent study/honors project that involves substantial statistical analysis may also be used as one of the five courses toward an applied statistics minor.

Applied Statistics Minor Form

Statistics Courses

- Statistics 113 Applied Statistics
