Seven math courses are required to complete a minor in mathematics. These courses must include MATH 135 and 136, or their equivalent. (For example, in the form of AP credit.) Math minors must also take MATH 205 along with four additional courses, three of which should be at the 200 level or above. Furthermore, CS 140 can count towards the minor. However, MATH 110, 123 and 134 may not be counted toward the minor.

Students should also consult the student handbook for further university-wide GPA and course distribution requirements necessary for graduation.

Requirements Checklist

_____ MATH 135 (or equiv)  
_____ MATH 136 (or equiv)  
_____ MATH 205  
_____ a fourth math course 
       (or CS 140)  
_____ three 200+ level courses
