

SOUTHWORTH PAPERS
MSS. COLL. 22

SCOPE AND CONTENTS

The Southworth Collection consists of fifteen letters covering a period from 1833 to 1902. The Southworth family was among the early settlers of Canton and the letters give a very good picture of early life in St. Lawrence County.

BIOGRAPHICAL SKETCH

The history of the Southworth family in St. Lawrence County goes back to the Rev. Constant Southworth who came from Vermont in 1820. Rev. Southworth was the pastor of the church in Brick Chapel. In 1836, the family returned to Vermont but eight year old Egbert Henry stayed behind and lived with a family named Leonard.

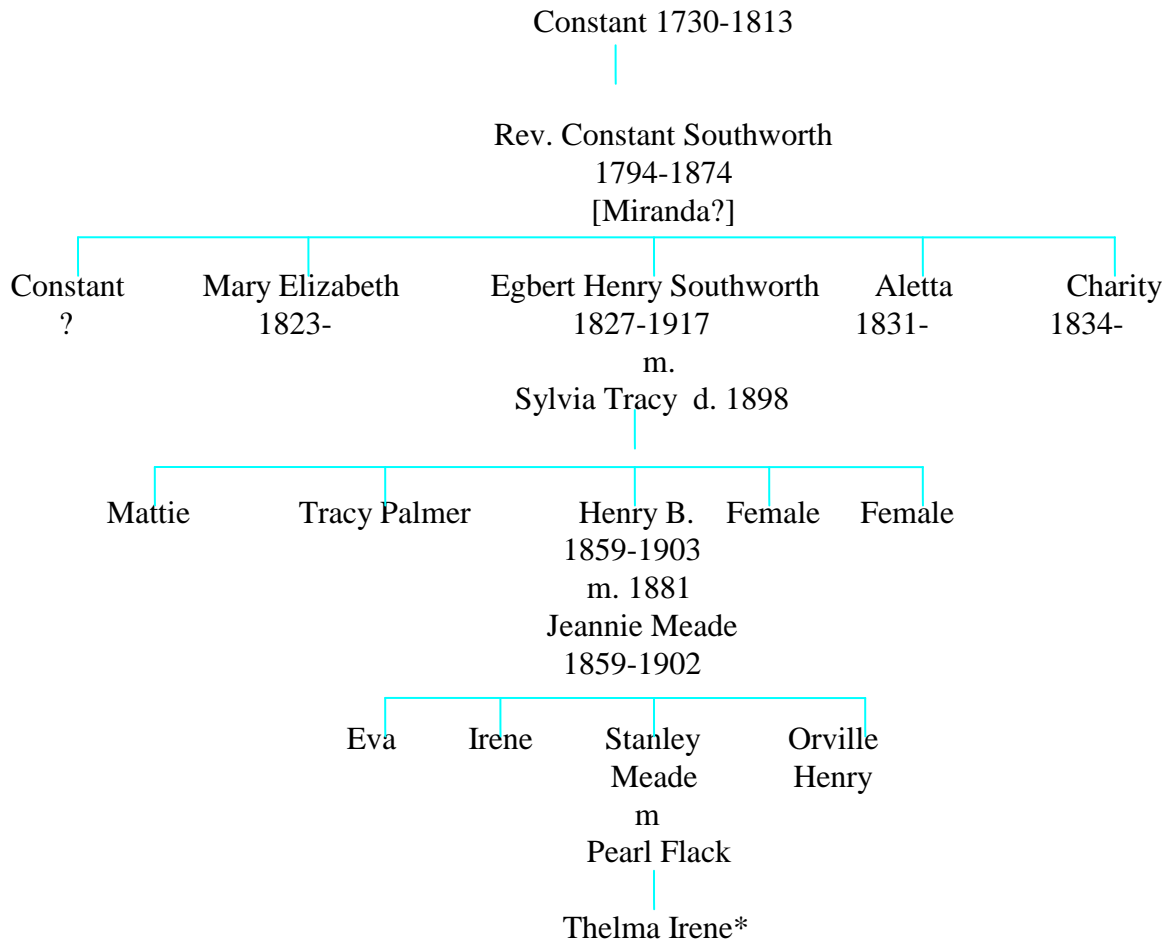

E.H. Southworth worked at a number of positions during his younger years. He was a merchant, selling from a cart between Plattsburg and Utica, a clerk for Ebenezer Miner in Canton, operated a sawmill, manufactured butter tubs and cheese boxes, and bought and sold butter and cheese before he turned to farming. He was a progressive farmer. He erected modern barns, introduced Holstein cattle to the county and endorsed modern farming methods. He also helped to organize the Dairymen's Association in the county.

Provenance

The letters were given to St. Lawrence University by Sandra Southworth Reid, a direct descendant of Egbert Bloomfield Southworth.

St. Lawrence University does not own the literary rights to this collection.

FAMILY TREE

*Thelma Irene changed her name legally to Sandra Southworth around 1947

DESCRIPTION OF SERIES
